Joseph Brant Hospital Foundation  
2011-2012 **Donor Report**

## A message from our Hospital President & CEO

Exciting new things are happening at Joseph Brant Hospital. 2011-2012 was an important year for us, as together as one big team we were able to accomplish many great things. Our staff, our physicians, our Foundation, our Board Members, our Auxiliary and our volunteers have all done extraordinary work that we are very thankful for.

In August of 2011 we received wonderful news that the provincial government had officially approved our Hospital Redevelopment and Expansion Project. The City of Burlington has committed \$60 million, and together with the \$60 million Capital Campaign the Hospital Foundation is raising with the support of our generous donors, we are turning a once distant vision of hospital renewal into a promising new reality.

Our Hospital is continuing to evolve and we are proud of the results we are seeing. In 2011 we introduced a new Strategic Plan which has set the framework and provided the road map of how we work over the next three years. We will strive to improve health care in Burlington and with our vision of delivering *Compassionate Care, Exemplary Service, Every Time* as well as the support of our hospital staff, donors and community, we know we have an unstoppable team.

Every day, we are encouraged by how the Hospital continues to move forward. Through the generous gifts from our donors, the devotion of Campaign Cabinet and Ambassadors Council, we are able to work together to meet higher care standards, introduce innovative equipment, and support new services – all for the care of the community. Thank you to all of our donors and supportive partners who are committed to the Hospital, its future and how we are changing health care in Burlington, for generations to come.

A handwritten signature in black ink, consisting of a stylized 'E' followed by a long, sweeping horizontal line that curves upwards at the end.

Eric Vandewall  
President and CEO, Joseph Brant Hospital

## A message from our President and Board Chair

Thank you for your help in making this an incredible year for our Hospital. As we reflect on the past 12 months, we have a lot to celebrate: together we have achieved a number of milestones that position our Hospital for an exciting future.

In 2011/12 Joseph Brant Hospital celebrated its 50th anniversary of serving Burlington and the greater area. In addition to this, we also received the long awaited approval of our Hospital's Redevelopment and Expansion Project, allowing us to continue to build on our tradition of serving our patients and our community. And finally, we made history when we gathered together for the official launch of our \$60 million Capital Campaign in support of the Hospital's Redevelopment and Expansion. This Campaign marks the largest of its kind for both our Foundation, and the City of Burlington. It is incredible to see how far we have come in only one year, and how our collective efforts are helping to build a new era of health care in our community!

We are so fortunate to have loyal and passionate donors who are committed to Joseph Brant Hospital and who have been by our side as we begin this exciting journey. It has been an honour to lead the Hospital's Foundation over the last year and to see the impact of your support.

You are helping to shape the future of our Hospital. Your generous support helps to put the best tools in the hands of our health care professionals. Every gift makes a difference to our Hospital's core programs and its critical needs.

In the pages that follow, we are excited to share with you, some stories that exemplify the amazing commitment and impact of you, our donors. Thank you for inspiring us and others in supporting Joseph Brant Hospital. Not only are we making history – together we are building our future.

Anissa Hilborn  
Foundation  
President

Brian Torsney  
Foundation Board  
of Directors Chair

# Celebrating our Milestones

Thank you for making our new beginning a reality. Your continued commitment will build a community hospital that will serve us, our children and our grandchildren for the next 50 years and beyond.

On January 12, 2012, over 500 donors, volunteers and friends gathered at the Burlington Performing Arts Centre to help kick off the \$60 million Capital Campaign for the Joseph Brant Hospital Redevelopment and Expansion Project.

The Foundation was overjoyed to announce three historic gifts: the Auxiliary to Joseph Brant Hospital has donated \$5 million; the four Rotary Clubs of Burlington have made a combined \$1 million gift; and the organizers and sponsors of the J.B. 2 Day Men's Invitational Golf Tournament have donated \$1 million to the Capital Campaign.

These initial donations provided the Campaign with tremendous momentum and established a terrific foundation on which to build. Fundraising efforts continued since then with great success, including the extraordinary support from members of our leadership. This includes members of the Foundation and Hospital Boards, the Campaign Cabinet and the Hospital's Senior Management, bringing our total giving to date to the \$10.1 million mark as of March 31st, 2012.

Our fundraising has continued since with great success. Our goal of \$60 million is ambitious – and achievable – with the continued and outstanding support of our donors.

In 2011, Joseph Brant Hospital marked its 50th anniversary and celebrated its promising future.

On August 11, 2011, The Government of Ontario announced its approval for the Joseph Brant Hospital Redevelopment and Expansion Project.

Burlington Mayor Rick Goldring and JBH President and CEO Eric Vandewall at the August 2011 Provincial Government approval announcement.

# Overcoming obstacles and making a difference

“I am a breast cancer survivor,” says Diane Bentivegna, smiling through teary eyes as she reflects on her journey. In November 2009, Diane was diagnosed with triple-negative breast cancer caused by a very aggressive grade three tumour.

Aside from all the unknowns that come with cancer, Diane and Angelo were in an unfamiliar situation – they were helpless, and this was new to the couple who had been helping people and charities, including Joseph Brant Hospital, for over two decades through their Burlington business, Mrs. B’s Gifthouse.

Joseph Brant Hospital’s Cancer Clinic was there to comfort Diane when she needed it most, addressing all her questions and fears about her cancer and her treatment.

“The care I received from physicians and staff was outstanding. Throughout my treatment program, every member of my care team helped me feel welcome and comfortable. I was greeted by name by receptionists, nurses, doctors and volunteers. With their care and attention, I always knew I was in capable hands. Joseph Brant Hospital Cancer Clinic became my home away from home.”

Diane’s treatment ended in June 2010 and she visits the Cancer Clinic twice a year for regular follow-up appointments. Diane and her husband, Angelo, credit the Hospital for giving them the greatest gift of all – Diane’s health. And now more than ever, they feel a special connection to the Joseph Brant Hospital Cancer Clinic and the “guardian angels” who were there to help Diane overcome breast cancer.

To show their appreciation and to help ensure Joseph Brant Hospital has state-of-the art equipment for early diagnosis of breast cancer, Diane and Angelo have been fundraising to support the purchase of a digital mammography unit with a biopsy attachment. The digital mammography unit with a biopsy attachment takes x-rays of the breast using digital technologies which produce images that can be manipulated by radiologist in a way that could never be achieved with conventional mammography. As a result, smaller cancers can be detected earlier and suspicious areas can be biopsied immediately.

The Bentivegnas’ fundraising efforts began last October with an initiative called “Biscotti 911.” Angelo and Diane sold their infamous Mrs. B’s Gifthouse biscotti at many businesses across Burlington and donated all of the proceeds for the new equipment.

Over time, this small biscotti fundraiser has grown into something much bigger. Angelo and Diane, with the help of various local businesses, service clubs and organizations, have organized an event to raise funds for the mammography unit: *Beauty and the Bistro – Be our Guest, Save our Breasts* will take place on October 20, 2012 at the Leggat Chevrolet Buick GMC Cadillac Dealership in Burlington.

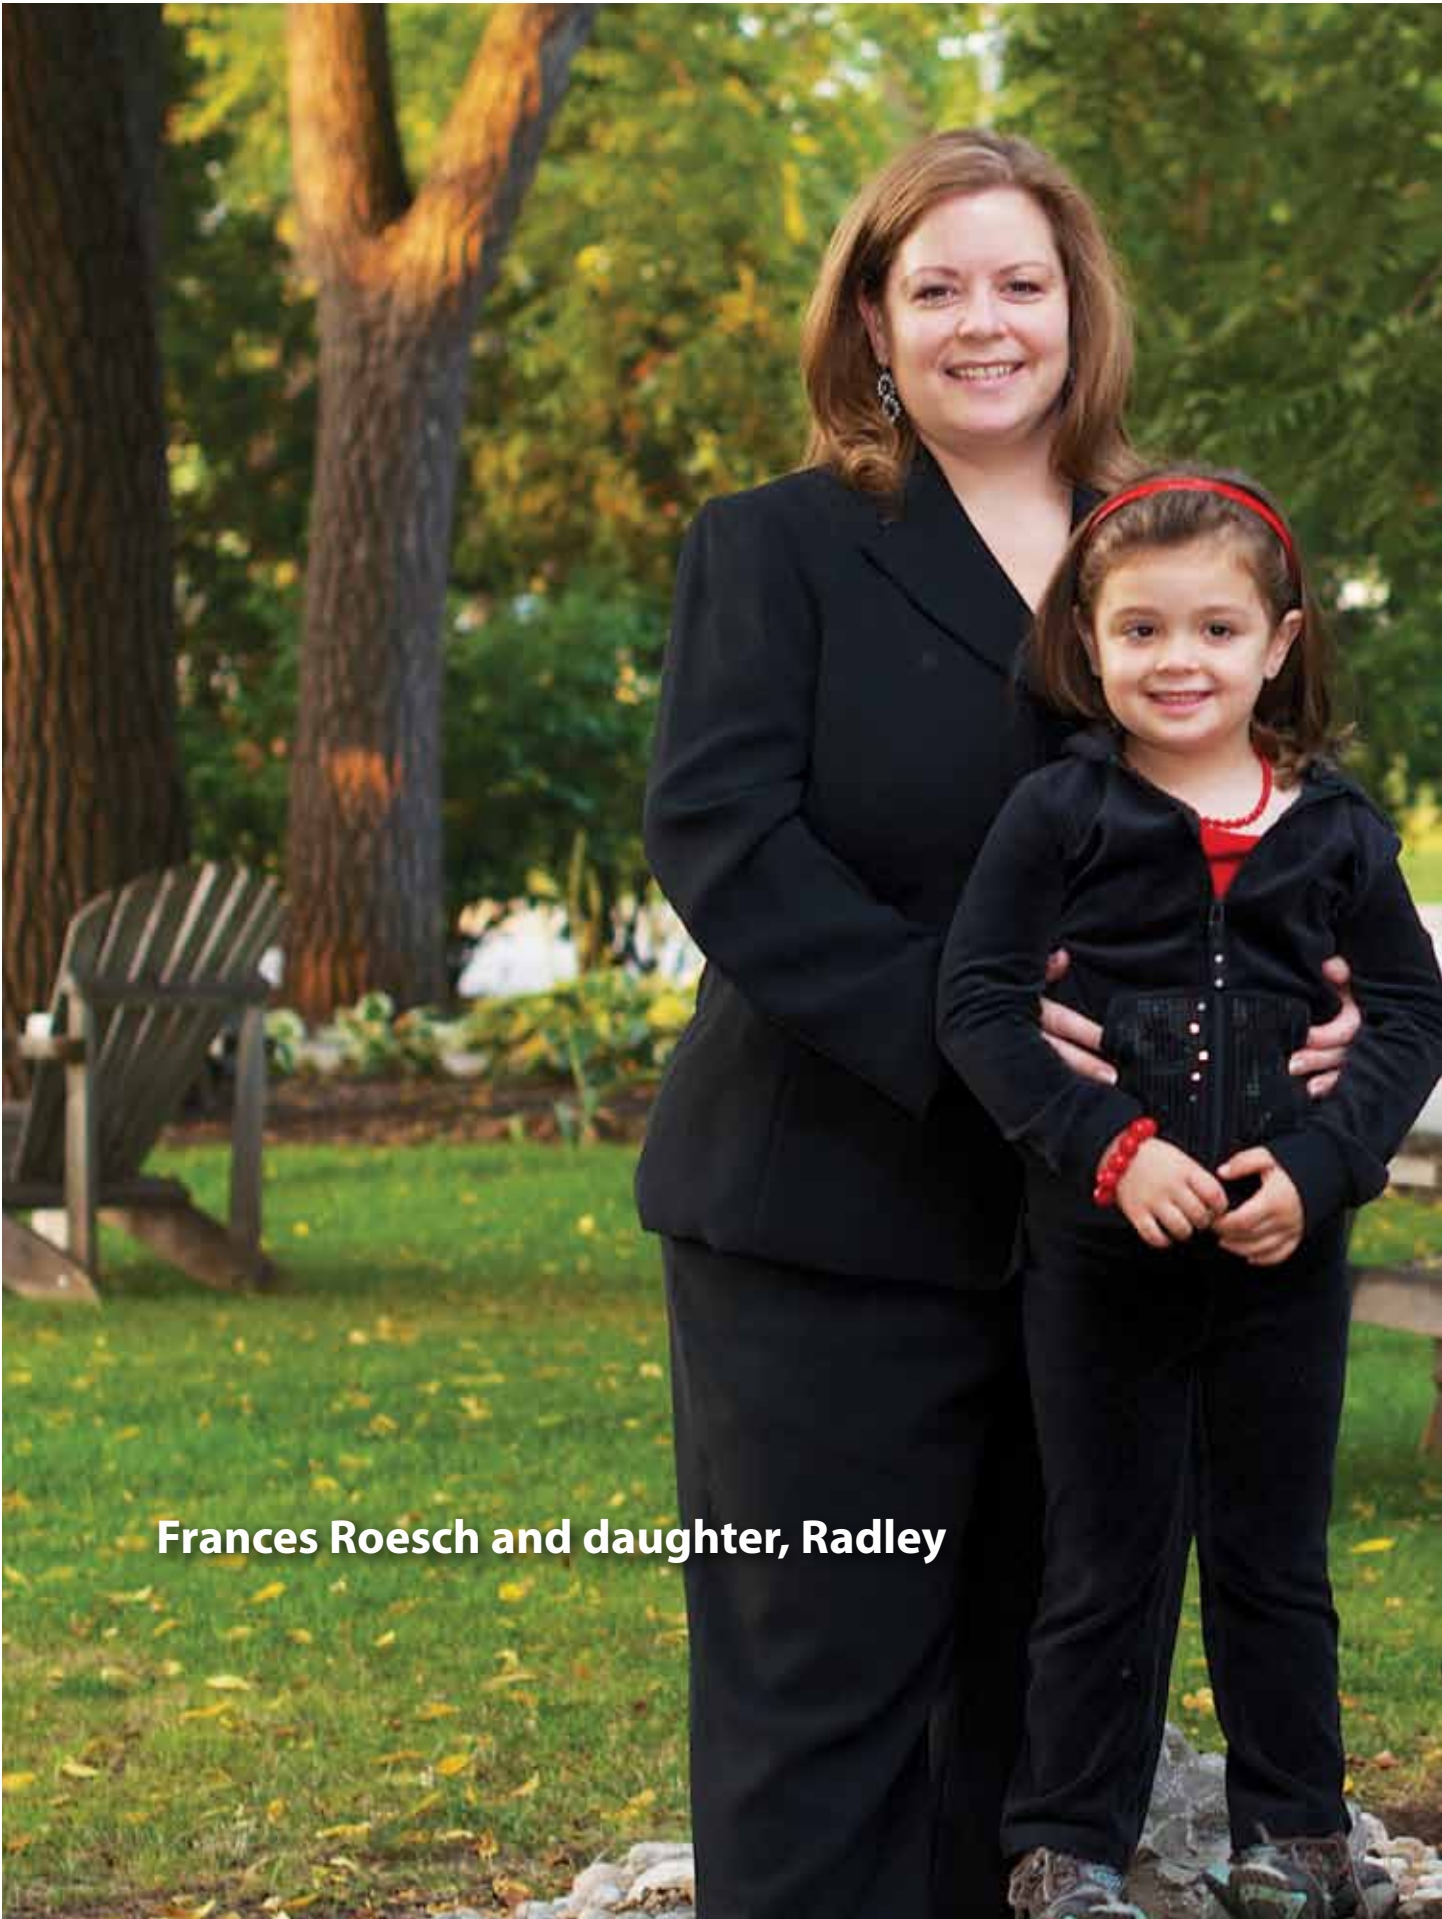

“Our goal is to show the same incredible passion, dedication and commitment that our guardian angels gave us during Diane’s treatment at Joseph Brant Hospital. We want to ensure Joseph Brant Hospital has the necessary equipment that will impact the diagnosis and treatment of breast cancer in our community.”

Thanks to the dedication and kindness of Angelo and Diane, Joseph Brant Hospital will have the necessary equipment in place to care for patients for years to come.

**Diane and Angelo Bentivegna**

“Our goal is to show the same incredible passion, dedication and commitment that our guardian angels gave us during Diane’s treatment and ensure Joseph Brant Hospital has the necessary equipment to diagnose and treat breast cancer in our community.”

**Frances Roesch and daughter, Radley**

## Giving back and shaping our future

Frances Roesch knows first-hand what it means to put your faith in the hands of health care professionals in a time of need.

“My daughter, Radley, was born blind,” she says, reflecting on the critical care her newborn needed after a difficult birth six years ago.

Frances spent much of Radley’s early months bringing her to hospitals for tests to determine the cause of her blindness. Radley, who is now six years old, has gained significant vision through hospital visits for assessments. Tests and continuing care are part of her reality.

When Frances joined Joseph Brant Hospital as the Director of Medical Affairs in 2011, she came with a full understanding of how hospitals operate and a deep appreciation of the importance of giving back. A few weeks into her position, she learned about the Hospital’s annual capital equipment needs and one item specifically hit close to home – the oxygen blender for the Special Care Nursery in the Maternal and Child Unit.

Oxygen blenders mix medical air and oxygen to the desired concentration, to ensure newborns receive the appropriate amount of oxygen. Every newborn is different and during resuscitation, their oxygen needs vary. This equipment prevents any damage to the newborn’s eyes or other organs from an oxygen concentration that is too high.

Because of her experience, Frances wanted to ensure that Joseph Brant Hospital’s Special Care Nursery had access to this critical equipment. She and her husband, Glen Pyle, signed up for monthly giving right away to purchase the oxygen blender.

“With Radley, there have been many unknowns and challenges. It’s the uncertainty that has been the hardest to accept. We spent a lot of time trying to determine the possible causes of Radley’s condition and whether it was due to a high concentration of oxygen. After time it became clear for us that this was not the cause. We know the oxygen blender can help other families avoid some of this uncertainty,” says Frances. “This is something we can do, something that is tangible and something that will help other families in their time of need.”

**“Making a monthly donation to help the Hospital purchase much-needed equipment is something we can do, something that is tangible and something that will help other families in their time of need.”**

**Bob and Susan Busby**

## Bridging our past and our future

Susan and Bob Busby believe that philanthropy has the power to impact the lives of many, transform communities and most importantly, create change.

Philanthropy is a Busby family tradition. Susan and Bob have been faithful donors to the Hospital for over 20 years and their gifts have had a tremendous impact on the care that the Joseph Brant Hospital provides our community. Over time, Susan and Bob have contributed to many of the Hospital's greatest needs including the Surgical and Dialysis Units and Emergency Department.

One of their earlier and most transformational gifts was to the Tomorrow is Here Campaign which helped pave the way for a new Cancer Clinic and an expanded Emergency Department. It was their generosity during this campaign that also inspired many others to give back. Susan and Bob are true leaders – as they lead by example, inspiring others around them to do the same.

In addition to their philanthropic support over the years, the Busbys have also contributed to Joseph Brant Hospital through the gift of their time. Susan's past involvement includes chairing the Foundation Board of Directors and the Hospital's Board of Governors, and now being a member of the Campaign Cabinet leading our fundraising activities in support of the Redevelopment and Expansion Project. Over the years, Susan and Bob have increased the profile of Joseph Brant Hospital and have helped to raise funds, friends and awareness of the Hospital's needs.

As the Hospital enters a new era of health care, Susan and Bob will continue to make their mark through supporting Joseph Brant Hospital's new Learning Centre. This Centre will be a major component of the Hospital's Redevelopment and Expansion Project. The Learning Centre will welcome physicians, residents, staff, and community at large by becoming a hub for professionals to gather, learn and share, and further our commitment to becoming a leading practice hospital.

“We feel good about our gift to the Hospital. Supporting our Hospital's Redevelopment and Expansion is the greatest need for Burlington today. We are confident our support will have a positive impact on not only the Hospital but also our greater community.”

Susan and Bob continue to be pillars of our community and their generosity and leadership helps to enable the Hospital to fulfill its commitment to the health of citizens in Burlington and beyond.

**“Supporting our Hospital's Redevelopment and Expansion is the greatest need for Burlington today. Together, our support will have an impact on not only the Hospital but also our greater community.”**

# meeting our annual **critical needs**

Our Hospital's six core programs – **Medicine, Surgery, Emergency, Maternal & Child, Mental Health, and Rehabilitation and Complex Care** – rely on countless pieces of equipment to care for our patients every day. Government funding does not cover all of our needs and expenses and that's why the Foundation commits to raising funds to support the purchase of critical equipment for diagnosis and treatment.

Our success would not be possible without the help of our community. Our donors are the reason we are able to put the best tools in the hands of our health care professionals. Thank you for your most generous support.

Here are some examples of the many pieces of equipment purchased for our Hospital in 2011-2012, through the support of our donors:

## **High Low Beds for our Telemetry Unit and Surgical Unit**

High Low beds create an environment that supports interventions for fall prevention. The low height provides a safe resting height for patients and can minimize the risk of fall injuries such as fractures, head, and brain injuries.

## **The BiPAP Vision Ventilator for the Intensive Care Unit**

The BiPAP Vision is a non-invasive ventilator which supports the breathing of patients using a mask instead of a breathing tube.

# Thank you for equipping us

## Simulation Equipment for the Emergency Department

The Advanced Life Support mannequin enables nurses to perform all the crucial tasks to learn and practice reality-based scenarios. Education research has proven repeatedly that professionals revert to 'muscle memory' when performing skills in resuscitation situations. Our staff are now able to train accurately to respond to these life threatening situations through the use of state-of-the-art equipment that can be fully resuscitated, have IV lines inserted, and can even verbally respond to actions that are performed.

## Heart Monitor Machine for the Heart Function Clinic

The Heart Function Clinic helps people with heart failure improve their quality of life and decrease their hospital admissions for heart failure. The new heart monitor machine is helping patient care by taking a patient's blood pressure more accurately.

## Ceiling mounted patient lifts for the Intensive Care Unit

Ceiling mounted patient lifts are installed to help move patients in and out of bed to support sitting in a chair, etc. It reduces the amount of physical lifting required by staff and allows the patient to be repositioned safely.

# with the best tools

# Thank you for supporting The Crystal Ball

The Crystal Ball Gala is the Foundation's largest and most successful annual fundraiser. With the help of our sponsors, donors, community partners and volunteers, the Crystal Ball has raised over \$3 million to date. Since the Gala's inception in 2001 - the proceeds from this event continue to purchase equipment for our Hospital's programs and critical equipment needs.

On May 14, 2011, Mercedes Benz Burlington, graciously hosted our Gala, and provided a beautiful and modern backdrop for the 2011 Crystal Ball which also marked our Hospital's 50th anniversary.

Over 700 community leaders, sponsors, friends and volunteers were in attendance, helping to raise \$250,000 to purchase a new Patient Monitoring System for our critical care areas including the Intensive Care Unit, Post Anesthetic Care Unit (surgery recovery), the Progressive Care Unit (for patients whose conditions are stabilizing after leaving the ICU), Emergency and Telemetry (for cardiac patients).
